

# Community Day Nursery

## Expulsion Policy

Community Day Nursery provides an accredited, high-quality, developmentally appropriate early childhood program.

We do not expel children from our school. In the event that a child's behavior in the classroom becomes problematic, the parents will be called in for a conference.

If the behavior issues in the classroom cannot be remediated in a reasonable period of time with the cooperation of the teaching team and the family, the East Orange Board of Education will be contacted. The Preschool Intervention and Resource Team will be consulted. A report and recommendations will be shared with the teaching staff and the family. In some cases it may be necessary to request an evaluation be done by the child study team.

The parents will be consulted and will provide permission at every step of intervention.
